Antoine Muneret

RELIABLE GOOD COMMUNICATOR ADAPTABLE

Since I was a kid, I've been passionate about creating things. Now, at 35, I spend my time solving challenges on LeetCode, building web components, or bouldering. I love to design intuitive and eye satisfying solutions.

In my roles as a stock and project manager at Nespresso, I developed strong communication and problem-solving skills, along with a reliable, steady work ethic. My experience taught me how to collaborate effectively, adapt to changing needs, and bring a sense of stability and kindness to the teams I work with.
