Professional Profile

Software engineer (Frontend) with two years of experience specialized in **Typescript and JavaScript**. I love exploring and enabling new technologies. I thrive in fast-moving environments where experimentation and collaboration across teams are key.

I quickly adopt new concepts and actively collaborate with teammates in order to boost our understanding of these technologies. I am known for clear communication, ownership, and bringing positive energy to teams. Experienced in international and remote collaboration across Austria, Belgium, and Switzerland.

Primary stack: Typescript, JavaScript, Angular, Vue.js, React native, Django, SQL (MySQL)

Core Competencies

- Agile development (Scrum & Kanban)
- Clean, maintainable frontend development
- Adaptability to new technologies and team environments
- Cross-functional teamwork (Product, Design, Backend)
- Clear communication & knowledge sharing

Work History

12/2024 - present

Frontend software engineer for digital mortgages solution

Oper Credits - opercredits.com | Antwerp, Belgium (remote)

End-to-end digital mortgage app for banks and borrowers

Stack: Typescript, Angular, SCSS, Python, Django

- Refactored legacy Frontend modules to improve maintainability and scalability
- Contributed to architectural decisions within an evolving product ecosystem
- Collaborated closely with backend engineers in a service-oriented environment
- Recognized by colleagues for clarity in communication, collaboration, and positive team spirit
- Worked in Scrum with three weeks sprints and cross-functional collaboration and Kanban board for feature tracking

- 01/2024 - 11/2024 **Frontend software engineer for online comic editor**
Comixplain - comixplain.cc | St Pölten, Austria
Online comic editor used for a research project
Stack: Javascript, Vue, Nuxt, SCSS
- Structured and initiated the front-end architecture for a research-driven product
 - Acted as frontend lead, supporting team members in understanding new concepts and design decisions
 - Worked in Scrum with three weeks sprints
- 08/2023 - 11/2024 **Co-founder of COMMUTE**
COMMUTE | Vienna, Austria
Mobile app to facilitate urban carpooling
Stack: React-native, Javascript, Firebase
- Developed a mobile app for urban carpooling using React Native and JavaScript, managing the full front-end and back-end development.
 - Designed and implemented a Firebase database to handle user data, ride matching, and real-time updates.
 - Participated in incubator program, receiving mentorship and pitching progress updates to investors and stakeholders.
- 11/2012 - 02/2017 **Project Manager (2015 - 2017), Stock Manager (2012 - 2015)**
Nespresso | Grenoble, France
Led continuous improvement projects within the supply chain
